Subject: The IRAQ Problem - - - Support of the President of the USA - - - SS Mr. Powell

Hello:

RECEIVED

Federal Regulations in Telecommunications 47 CFR 97.111 allows the FCC to "Ban" communications with a country with which we are at war with. [Ham or Amateur Radio]

MAR 18 2003

Federal Communications Commission
 Office of the Secretary

I suggest that a 30 day to 90 day ban on "Ham" - "Amateur" radio communications with IRAQ, unless it is a matter of "Relief" under the "United Nations" or "International RED CROSS & RED CRESCENT ORG's".

The FCC has in several wars restricted or closed down the "Ham" radios, this would not be a wise move for homeland security needs!

Please consider the "Limited Ban" except for true Rescue or Aid under the "Shield of the U N on Ham Frequencies only.

Thanks

Dale E. Reich

BM-10641

Dawn Marcelle (dawnmarcelle@aol.com) writes:

For the FCC
Commissioner Adelstein,

It is important that the power of global media be a representation of popular opinion. It is equally important that the same media challenge such opinions. In this challenge lies the doors of tolerance, justice and freedom. Freedom not only of speech but also of perception. If we allow corporate control into this core avenue to truth we lose the very freedom that defines our perceptions. We then fall under the control of corporate globalization of greed.

As Americans we should stand united against this invasion of freedom. We should demand no less from our free press than to voice unprejudiced truth. Without public trust in media resource, a democracy can have little faith in the process of electoral candidacy. The American public does not want to be tricked by the greedy oil barons into voting for the candidate who best represents their interests. We are waiting for the truth to represent the best person for the job. This person will represent the interests of the majority, and a corporate media will never tell us their name.

Subject: FCC rule change

EX PARTE OR LATE FILED

ORIGINAL

RM-10641

Dear Commissioner Adelstein,

I am very concerned about the proposed rule change which would allow a single company to own a TV station, radio station, and newspaper in the **same market**.

The concentration of media ownership in a few large companies is a disturbing trend. As more independent stations and newspapers are forced out of the market, because they can't compete with giant corporations, we, the consumers, are deprived of a healthy competition between viewpoints. In our democracy all our freedoms depend on this healthy flow of competing ideas. This is a bedrock principle. Please do not allow this principle to be further weakened. Please vote no on the pending proposal. Please begin to reverse this concentration of media ownership. Thank you.

Sincerely,

Bob Jackson

John Rook (john@JohnRook.com) writes:

COMMENT by John Rook

The FCC hearing scheduled for today (March 7, 2003) in Seattle wasn't even announced until three days ago. Attempting to make the names of the panelists and agenda known allowed for even less notice. While the information was apparently available to the planners, it was not available to the media. If they expected a turnout of significance, certainly more notice would have been helpful.

While appreciation should be noted that commissioners Adelstein and Copps called for the meeting, commissioner Kathleen Abernathy, a rubber stamp for chairman Powell was unable to escape the comfort of her Washington D.C. office and the chairman himself, has already made it quite well known that he has all the information he needs to continue his deregulation of the media on behalf of his well connected, wealthy friends. Indeed, chairman Powell states his mind was made up before any additional input from the public was received. He is so gifted, I would suggest he might make an excellent programmer for Infinity and Clear Channel, he knows that the public needs and wants before they do.

Despite providing the names of several panel members and contact phone numbers to the FCC, we were advised the panel had already been set, but again no names were given. More than one broadcaster hid behind the intimidation of continuing to make a living in the industry, should they make their true feelings about deregulation known.

We recommended the name of one very well known and respected Seattle radio veteran and concert promoter, Pat O'Day. He has more radio experience in the Seattle market than all other panelist and FCC commissioners combined. Mr. O'Day is no longer in either the radio or concert business, but his views could have made an excellent contribution to the panel. That is unless, the outcome of the hearings have already been decided by the FCC commissioners.

Given the limited noticed and lack of information concerning the event, let's hope the travel west by commissioners Adelstein and Copps bares enough fruit to be helpful to commissioner Kevin Martin. His courage and independent thought has brought a breath of fresh air to the commission. We already know any information that returns to the beltway will find little space on the desks of commissioner Abernathy and chairman Powell.

Robert Zverina (rob@zverina.com) writes:

Hello Commissioner Adelstein,

I'm the guy who made the WE [heart] ADELSTEIN sign in Seattle. Thank you for your visit. Here's what I wanted to say at the Public Hearing on March 7, 2003, but time ran out...

My name is Robert Zverina. That is not a very American-sounding name, but then, what is? I am an American citizen by birth, born in Liberty, New York in 1969. My parents were political refugees from then-Czechoslovakia, a formerly democratic nation which fell under the Soviet sphere of influence after WWII.

After the infamous Soviet crackdown of August 1968, the Soviet regime allowed malcontents like my parents to leave the country, but with the understanding that if they did so they may never return, under pain of imprisonment. My parents sacrificed their careers, possessions, Czech citizenship, and ties with friends and family in favor of a chance at life in a democracy.

What is happening in the United States today--the USA PATRIOT Act, the veiled Domestic Security Enhancement Act, and proposed media deregulation--is a betrayal of the ideals for which they sacrificed everything they knew and held dear. I am only glad that they are not alive to see this ongoing perversion of the Constitution, as I am sure it would have broken their hearts.

As a concerned citizen with an ingrained love of the United States Constitution and democratic ideals, I urge the FCC to preserve diversity, localism, and competition in media by saying NO to deregulation.

Thank you for your attention and for taking seriously your obligation to preserving democracy in the United States of America.

Yours truly,
Robert Zverina

<http://www.zverina.com>

p.s. I hate to sound a paranoid note, but I have protested the war publicly and been outspoken in my criticism of the current administration in my writings. If the current trend towards fascism continues, please remember my name if I'm disappeared. I know that sounds cuckoo, but my father was a writer in Prague and he saw it happen there. Given the current political climate, I don't see why the same thing can't happen here. If William Rivers Pitt is to be believed, it is already happening:

MAR 18 2003

Federal Communications Commission
Office of the Secretary

Hello:

RM-10641

Can't get into the ECFS system to tile a comment on RM-10647 about GROL/ GMDSS system wont let any in to file comments.

For the Recor I'm for the Proposal, however setting on the "FCC Bureau Cheifs" & "Other Departments" are a string of suggested "RM's" several that deal with Part 13 requests. Including a "New" class of licensed proposed to stop the Illegal Shops from Programing radios on Illegal frequencys.

This future " R M If your "Bureau Cheifs" and/also the "FCC Legal" staff finish with the task of decodeing my requested " R M and post them, has a exception I suggest that the "Programer Class" for the Part 13 be a "Fee Based periodic renewal. It should not be lifetime.

A simple "Fee" for "Adminstrative update" for change of "Address" should also apply with updated to the ULS required by the licensee.

Thanks

Subject: Linesharing Office of the Secretary

ORIGINAL

Please don't eliminate Line-sharing, by phone bill is too high now!
Eliminating linesharing only benefits the RBOCs years long lobbying campaign
to regain their monopolies, not individual consumers!
Currently DSL sells for \$3545, Ivan Seidenberg has stated publicly he
believes DSL should be priced at \$70 a month, thats a increase of 100+%.

RM-10641

Where is the logic? What is the motivation? Who's interests are you serving?

As I understand it, "the fcc has the power of infinite reconsideration; that
is it has the power to reconsider and reverse itself."

Please take advantage of this period prior to publication of the order and
reconsider this tragic decision.

James Glaser
Missouri
